Specification

- ▶ Zinc die casting
plastic coated
black, textured finish
- ▶ Adjustable hand lever GN 302
plastic coated
black, textured finish
main catalogue page 213

Information

Clamping plates GN 953.6 / GN 954.6 are used in connection with position indicators GN 953 and GN 954.

In a simpler way and without large construction and installation effort these spindles can, after adjustment, be clamped and locked.

At the same time these plates are fitted with the bore Ø 6 to accept the torque limiter for the position indicator.

The spacer can be installed so that it lies as required either to the right or the left.

How to order
